

1. Executive Summary

The year **2025** marks a significant shift in global grain demand, pricing behavior, and supply chain stability.

This report provides a complete analysis of:

- Global rice trends
- UAE import patterns
- Price movements
- Demand signals
- Supplier positioning
- Forecast for 2025–2026

This analysis covers the four major commercial categories:

- **1121 Sella (India)**
- **1509 Sella (India)**
- **Irri 6 (Pakistan)**
- **Thai White & Parboiled (Thailand)**

The insights in this report help buyers and suppliers make **accurate pricing decisions, plan stock, and forecast demand.**

2. Global Rice Trends (2025)

2.1 Production Stability

Global rice production in 2025 remains stable across India, Pakistan, and Thailand, with minor fluctuations due to:

- Weather patterns
- Export policy adjustments
- Domestic consumption changes

2.2 Export Behavior

India continues to dominate premium basmati exports, while Pakistan leads in mass-market long-grain varieties.

Thailand maintains strong demand in African and Middle Eastern markets.

2.3 Market Drivers

Key factors influencing 2025 pricing:

- Freight cost normalization
- Increased UAE demand
- Strong African import cycles
- Currency fluctuations (INR, PKR, THB)
- Packaging cost increases

3. UAE Demand Overview

The UAE remains one of the most stable import markets for:

- Premium basmati
- Mass-market long-grain
- Parboiled rice
- Pulses and wheat (secondary categories)

3.1 Buyer Segments

UAE demand is driven by:

- Wholesale traders
- Re-exporters
- Retail brands
- Food service companies
- Hypermarkets

3.2 Key Trends

- Higher demand for **1121 Sella** due to premium retail packaging
- Strong movement in **Irri 6** for mass-market distribution
- Growing interest in **1509** due to cost-effectiveness
- Stable demand for **Thai White** in African re-export markets

4. Price Analysis (2025)

4.1 1121 Sella (India)

Market Position: Premium basmati

Demand: Strong

Price Behavior: Stable with slight upward trend

Key Drivers:

- Packaging cost increases
- Strong UAE retail demand
- Limited premium supply

4.2 1509 Sella (India)

Market Position: Mid-range basmati

Demand: High

Price Behavior: Stable, competitive

Key Drivers:

- Cost-effective alternative to 1121
- Strong demand from UAE wholesalers
- High availability

4.3 Irri 6 (Pakistan)

Market Position: Mass-market long-grain

Demand: Very strong

Price Behavior: Slight fluctuations

Key Drivers:

- African import cycles
- PKR currency movement
- Seasonal supply variations

4.4 Thai White & Parboiled (Thailand)

Market Position: Re-export category

Demand: Stable

Price Behavior: Slight upward trend

Key Drivers:

- African demand
- Freight cost normalization
- Thai export policies

5. Forecast (2025–2026)

1121 Sella

- Expected to remain stable
- Retail demand will keep prices firm
- Packaging cost increases may push prices slightly higher

1509 Sella

- Expected to remain competitive
- Strong UAE demand will continue
- Ideal for mid-range retail brands

Irri 6

- Seasonal fluctuations expected
- African demand will drive price spikes
- PKR volatility will influence pricing

Thai White

- Stable demand
- Freight normalization will keep prices predictable
- Strong re-export movement expected

6. Supplier Recommendations

For Indian Suppliers

- Maintain strong packaging quality
- Focus on 1121 & 1509
- Ensure pesticide & ritual compliance
- Prepare for stable UAE demand

For Pakistani Suppliers

- Keep Irri 6 stock updated
- Maintain moisture & quality standards
- Prepare for African demand cycles
- Ensure competitive pricing

For Thai Suppliers

- Maintain consistent quality
- Focus on African re-export markets
- Keep freight documentation accurate

7. Buyer Recommendations

For UAE Buyers

- Secure 1121 early to avoid price increases
- Use 1509 for mid-range retail brands
- Stock Irri 6 during low-price cycles
- Monitor Thai White freight trends

For Re-Exporters

- Focus on Irri 6 and Thai White
- Maintain strong packaging quality
- Monitor African demand cycles
